GPA Introduction & Updates

Agenda

- 1:00 – 1:20 EPRI Introduction (Tom Cooke, EPRI)
- 1:20 – 1:40 GPA Introduction & Updates (Erika Wills, GPA)**
- 1:40 – 2:20 SPC Tools (Christoph Lackner, GPA)
- 2:20 – 3:00 Trend Search (Tony Murphy, TVA)
- 3:00 – 3:15 Break
- 3:15 – 4:00 openSEE Updates and Demo (Erika Wills, GPA)
- 4:00 – 5:00 Discussion

Introduction Key GPA Staff

Grid Protection Alliance, Inc., specializes in the development and support of **innovative software solutions** for the **electric industry**.

GPA has a track record of innovation and **has led major software development projects** with client utilities and the Federal Government.

In addition to **custom application development**, GPA offers services for installation, set-up, integration, and on-going **maintenance of its open-source software**.

Dr. Christoph Lackner
Operating Officer & Lead Engineer

ROLE: Operational & Engineering Leadership

- Establishes new software development projects and assures the successful completion of established projects.
- Provides engineering oversight of GPA analytic applications.
- 8+ years' experience with synchrophasor data analytics and use of synchrophasor data in various applications such as state estimation, predictive maintenance, and system parameter estimation.
- Specializes in the development of real-time and offline data analytics for power systems.

Erika Wills
Senior Support Engineer

ROLE: Support & Project Leadership

- Oversees customer support and project progress.
- Establishes training curricula and software documentation.
- Previous experience in sales, operations and technical support
- 10+ years of experience in customer support and project management.
- B.S. in IT with focus on software development.

Stephen Wills
Senior Systems Analyst

ROLE: Lead Software Development

- Major contributor to GPA software solutions and provides system support and integration services to utilities.
- 10 years' experience in developing .NET solutions, much of that time contributing significantly to GPA's core code base – the Grid Solutions Framework.
- Specializes in the management of data from substation devices – PMUs, DFRs, power quality meters, and relays.
- Prior to joining GPA, extensive experience at the Tennessee Valley Authority in development of synchrophasor data software.

Ritchie Carroll
Senior Solutions Architect

ROLE: Systems Architect & Lead Developer

- Oversees GPA software development and provides software system design and development services to utilities.
- 25+ years' expertise in high-performance software system design, development, and delivery. Has led numerous large software development projects.
- 10 years at the Tennessee Valley Authority leading synchrophasor software development among other operational systems.
- Active participant in NASPI and other industry efforts to improve synchrophasor data systems.

Russell Robertson
Principal

ROLE: Strategic Studies

- Establishes collaborations within the utility industry to support the development and maintenance of open-source software.
- Founded GPA's open-source software and consulting-service business.
- Expertise in grid operations, IT/OT architecture, information management, and control systems.

Updates

- TrenDAP Phase II
- SPC Tools fixes
- openSEE redesign
- openXDA 3.0 Release
- openXDA 3.0 Training Sessions and Documentation

Next User's Group Meeting

- In conjunction with the EPRI Fall Advisory
 - In-person in Los Angeles, CA
 - Wednesday, September 18, 1-5pm PT
- Agenda to include TrenDAP progress and other utility-driven R&D, miMD demo
